Profile

I have a passion for the programming world and I am determined to pursue a career as a full-stack programmer. During my studies, I have acquired knowledge in several programming languages, frameworks and technologies relevant to full-stack development. I have experience in front-end, back-end and database development.

In addition, I have solid interpersonal skills, which allow me to collaborate effectively as a team and communicate ideas clearly and concisely. If you are looking for a dedicated full-stack programmer, passionate about technology and committed to excellence, I am confident that I can add value to your organization. I am looking forward to contributing my knowledge and skills to the success of your project.

Employment History

Internship in Infrastructure Support at Mundial S.A. – December 2022 – June 2023

- Monitor the performance of computer systems and networks, identifying and resolving issues that affect performance or availability.
